- 44) What ..... nice cake !  
 A) the                      B) a                      C) so                      D) such a

## Find Safety in Numbers

As more business is \_\_\_\_\_57\_\_\_\_\_ online, security becomes a more \_\_\_\_\_58\_\_\_\_\_ issue with each point and click. And for those who hold the digital keys to a secure Web, there's plenty of money to be \_\_\_\_\_59\_\_\_\_\_ in 2003. Around the world, companies are expected to \_\_\_\_\_60\_\_\_\_\_ around 5.4% of their IT budget on digital security in 2003, up \_\_\_\_\_61\_\_\_\_\_ 3.1% in 2001 (then a \$6 billion market), says John Pescatore, vice president for internet security research at Gartner Inc.

Tech Pioneer Claus Bo Mikkelsen, the 46-year-old CEO of Denmark's Crypto-mathic, expects to get a chunk of that. His digital security company was \_\_\_\_\_62\_\_\_\_\_ in 1986 by \_\_\_\_\_63\_\_\_\_\_ renowned cryptographers. Cryptomathic specializes \_\_\_\_\_64\_\_\_\_\_ managing "digital identities", personal information (such as credit card details) stored \_\_\_\_\_65\_\_\_\_\_ in a central place on the Internet. The system uses digital signatures as access keys \_\_\_\_\_66\_\_\_\_\_ costly hardware tokens. The company's technology is \_\_\_\_\_67\_\_\_\_\_ being tested for the likes of MasterCard Europe, IBM, Credit Agricole and the Danish government.

Worries about \_\_\_\_\_68\_\_\_\_\_ or even insiders stealing digital identity information should ensure \_\_\_\_\_69\_\_\_\_\_ growth next year for the information encryption business. In fact, safety looks like one of the digital \_\_\_\_\_70\_\_\_\_\_ safety bets.

- 57) A) made                      B) conducted                      C) dealt                      D) lost
- 58) A) pressing                      B) depressing                      C) inviting                      D) surprising
- 59) A) saved                      B) done                      C) wasted                      D) made
- 60) A) send                      B) organize                      C) spend                      D) lose
- 61) A) to                      B) from                      C) by                      D) for
- 62) A) founded                      B) found                      C) funded                      D) made
- 63) A) few                      B) many                      C) one                      D) several
- 64) A) on                      B) into                      C) to                      D) in
- 65) A) safely                      B) safety                      C) costly                      D) only
- 66) A) as                      B) better than                      C) rather than                      D) rather
- 67) A) actually                      B) presently                      C) currently                      D) fluently
- 68) A) outsiders                      B) hackers                      C) hacking                      D) computers
- 69) A) strongly                      B) weak                      C) strong                      D) growing
- 70) A) world's                      B) world                      C) nation                      D) international
